

LODGE OFFICIAL IS TERRIBLE TRAGEDY HONORED FOR SERVICES IN MOHAVE COUNTY

Presentation To Past President W. M. Poulson
E. Ogden A Mail Carrier Mortally Wounds T. C. Lake

New Lodge Of Fraternal Murderer Gets Revenge Brotherhood Shows For The Abuse He Appreciation Received

(From Saturday's Daily.)
After the regular business of the meeting was concluded by the Fraternal Brotherhood (new lodge) last evening at Oddfellows' hall, Past President W. M. Poulson was treated to a surprise by the presentation to him of a beautiful pair of gold cuff buttons.

The presentation speech was made by Mrs. M. E. Tobin, the newly installed president, who in touching words referred to the great services rendered the lodge by Brother Poulson during his term in the chair as well as to his devotion to the order ever since the institution of the lodge.

Brother Poulson, after regaining his composure, thanked the lodge and the new president in feeling words and assured all present of his admiration for the principles of the Fraternal Brotherhood and concluded by stating that he would continue his best endeavors to the upbuilding of the lodge in the future as he had in the past.

After the presentation was over those present and the invited guests enjoyed themselves even until the wee sma' hours of the morning tripping the light fantastic, only stopping long enough to partake of refreshments which were served by the lady members, who appear to have completely outdone themselves as hostesses on this occasion.

DANGEROUS ABSCESS IS REMOVED FROM J. M'GINNIS

(From Saturday's Daily.)
J. McGinnis, a boiler maker employed at the Humboldt smelter, was admitted to the hospital on Thursday last suffering from an abscess behind the ear. After his admission almost all of the leading physicians of the city were called into consultation, and as the patient was considered to be in a dangerous condition, an operation was decided on.

The abscess, which is known to the profession as a mastoid abscess, was opened and the cavity cleaned. The patient, who is a very large man, stood the ordeal well, and at last reports was resting easy and feeling much improved. The operation was pronounced a success by the surgeons, but it is thought that the patient may partially lose the sense of hearing as a result.

NEW HUMBOLDT HOSPITAL NEARLY READY FOR OCCUPANCY

(From Saturday's Daily.)
The six ward hospital now in course of erection at Humboldt, belonging to Dr. L. C. Tenney is about completed, and will be ready for occupancy as soon as the furniture ordered arrives and is put in place.

The building is a model of its kind, the furniture and fittings ordered are said to be among the best to be found on the market, and the institution will add much in the way of accommodations for the sick and injured of that prosperous camp as well as the surrounding country.

Presentation To Past President W. M. Poulson
E. Ogden A Mail Carrier Mortally Wounds T. C. Lake

New Lodge Of Fraternal Murderer Gets Revenge Brotherhood Shows For The Abuse He Appreciation Received

(From Saturday's Daily.)
Last Monday afternoon, near the summit of Coyote hill, a terrible tragedy was enacted, Eliel Ogden shooting and mortally wounding T. C. Lake, reports the Kingman Miner.

The wounded man was taken to town and lived until the following day at 11:30 o'clock, suffering the most excruciating torture. The causes leading up to the shooting have been given as follows: Ogden has been carrying the mail from Kingman to Cerbat, and the post office being some distance below the town, Lake asked Ogden to bring his mail to him. Not doing so one day last week, Lake vilely abused Ogden, and threatened to beat him up and that if he ever came into Cerbat again he would kill him. Ogden brooded over the insult and Monday last in coming in from Cerbat he passed Lake at the Coyote Hole water, where the latter was watering his horses. Going up the long grade to the top of the Cerbat range, Lake's team overtook the team driven by Ogden. Stopping his horses, Ogden jumped to the ground gun in hand and demanded of Lake if he thought he could whip him, at the same time firing his gun in the air twice. Lake begged that he allow him to go to town and arm himself, and that he would meet him on equal ground, but Ogden again fired, the third bullet striking Lake in the abdomen, about two inches above the navel. Firing again the fourth bullet lodged in the fleshy part of Lake's left arm, close to the shoulder. After the shooting Ogden drove off. Hugh Holland, who was with Lake, did everything that he could to make the wounded man comfortable, and drove into town with him. He was taken to the hospital, where he lingered in awful agony until death relieved him. Another witness to the shooting was W. B. Campbell, of Cerbat, who tells practically the same facts as above related.

A coroner's jury was empaneled Tuesday afternoon, and after inquiring into the matter, brought in a verdict that T. C. Lake came to his death at the hands of E. Ogden, and charging him with murder.

At a preliminary examination Wednesday last Ogden was held to the grand jury without bail.

T. C. Lake was a native of New York state, and was aged about 38 years. He had resided in this county a number of years, his home being at Cerbat the greater part of the time.

Eliel Ogden is aged about 74 years and is also a native of New York.

At a preliminary examination Wednesday last Ogden was held to the grand jury without bail.

FILIBUSTER IN HOUSE ON PRETEXTS

WASHINGTON, Jan. 26.—The first attempt at filibustering during the session occurred in the house today in the Democratic endeavor to defeat a provision in the urgent deficiency bill waiving the eight hour law for foreign laborers on the Panama canal. The amendment was placed in the bill in the committee of the whole after the house had divided many times on every pretext which minority leader Williams could make cause for a vote.

When the bill, to which the amendment was proposed was finally finished late in the day, a demand for a separate roll call on that amendment was made and ordered, at which time the house adjourned. The vote will occur tomorrow. The amendment was ruled out of the bill on a point of order on Tuesday, and its insertion today was

effected under the provisions of a special rule brought in from the rule committee for that purpose.
The only other controversy of the day resulted from the attempt to increase by \$115,000 the amount for meat inspection by the department of agriculture. This increase was refused after an animated debate.

BUNKERS SEEMS TO FAVOR FRENCH

SACRAMENTO, Jan. 26.—Harry Bunkers, the convicted senatorial boot-licker occupied the witness stand most of the time in the trial of ex-Senator French for bribery, today, and although called by the prosecution, he seemed to be the star witness for defendant when it came to cross-examination.

In his direct testimony he reiterated his testimony given in the Emmons case, but his cross examination showed many points in favor of French.

For good straight wines and liquors go to the Kentucky Liquor Store.

REVOLUTIONISTS ACTIVE IN RUSSIA

ST. PETERSBURG, Jan. 26.—Railroad communication with the Caucasus has been restored. Revolutionists of Georgia and Mingrelia are retiring to the mountains, and obstinately resisting the advance of the troops. The revolutionists who were driven from Kviria rallied yesterday and fought a regular battle with the advancing troops.

Several other encounters are reported. Several towns are in flames.

The troops are astonished at the firmness of the revolutionists, who have cavalry as well as infantry. Two companies of troops besieged at Kviria were disarmed, and the captain in command killed.

Revolution has broken out in northern Caucasasia. The mountaineers around Ekaterinodar have risen and are making frequent attacks.

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

Send for free sample.
Be sure that this picture is the form of a label is on the wrapper of every bottle of Emulsion you buy.

ARIZONA ASSESSORS SUMMONED TO CONVENE

Its Object To Secure A
Uniform System Of
Valuations

Conference Desired To
Adopt Rule For
Taxation

Auditor John H. Page has addressed personal letters to each assessor of the territory inviting him to attend a meeting of assessors to be held there February 1st. The letter is self-explanatory, and a copy has been secured for publication herewith:

Dear Sir—You probably have been apprised of the fact that the supreme court of the territory rendered two decisions on Saturday, the 20th inst., involving many questions of taxation. For the first time that court has been enabled to lay down some authoritative rules relating to the procedure in matters of the valuation of property for the purpose of taxation. Copies of these decisions are being prepared, and will be printed for distribution among various tax officers of the territory.

It has been suggested and the suggestion has the approval of the governor, that a meeting of all the county assessors be held at the capital in Phoenix, on Thursday, February 1st, next, to discuss matters of valuations of property for purposes of taxation. That such a discussion would result in great good is obvious. A uniform rate of assessment throughout the territory is contemplated by law, and a conference of the various assessors would do much to promote that end.

There are many other matters connected with the official duties of assessors that can be profitably discussed at such a meeting, not only as to the mere fixing of valuations, but the manner of making assessments generally. The attorney general has signified his entire willingness to attend the meeting, and render such assistance as he can.

The importance of such a meeting

and the good that can be accomplished by a full and free conference are so perfectly obvious that I need not point them out in detail. I have written a like letter to the assessors of the other counties, asking them, as I now invite you, earnestly, to meet with the various county assessors at Phoenix, Thursday, February 1, 1906.

Yours very truly,
JAMES H. PAGE,
Chairman of the Territorial Board of Equalization.

NOTES FROM THE LABOR WORLD.

The 100 principal trade unions of Great Britain have a membership of 1,643,640, with an aggregate income of \$10,368,000 annually.

Boot and shoe workers' unions will this month vote on the referendum as to whether or not an international convention shall be held this year. The general officers are of the opinion that one should be held.

The cigar makers' union of Worcester, Mass., has voted to impose a fine of \$5 on any member found smoking a cigarette. The rule was made to protect the sick benefit fund. It was found that more death claims were paid to families of cigarette smokers than to the families of men not addicted to the habit.

At the recent convention in Chicago of the international brotherhood of steam shovel and dredgemen, the delegate from Panama reported that the condition of the steam shovel and dredgemen on the Panama canal was satisfactory at present.

The clause of the trade marks bill providing for the labelling of merchandise in such a way as clearly to indicate goods made wholly by union labor has been carried in the Australian house of representatives by 26 votes against 22.

The Boston Sign Writers' union has started a movement to erect a six-story building in Boston, at a cost of \$300,000, to be known as the "Temple of Justice," and a monument to a craft which was honored by the late Joseph Jefferson, James Whitcomb Riley, Fritz Emmett and other famous men in their early days.

A movement has been set on foot by the American Federation of Labor to collect a fund for the purchase of a burial plot and the erection of a monument in Greenwood cemetery, Brooklyn, in memory of the late John Swinton, who was a steadfast champion of organized labor.

The Western Federation of Miners claims credit for the favorable decisions obtained in Nevada and Missouri, the eight-hour laws of which states have been declared constitutional.

The only large labor convention to be held next month is that of the Pocket Knife Blade Grinders' and Finishers' National union, which meets at Bridgeport, Conn., February 23.

The Journal-Miner has three times the circulation of any paper in Northern Arizona.
